- Super Lift & Cut Action lifts hairs to cut comfortably close

### Easy to use

- Replacement reminder
- Easy to replace shaving heads
- Reset your shaver after replacing shaving heads
- Reset your shaver to new

# PHILIPS

## Highlights

### Replacement reminder

The latest Philips shavers have an inbuilt replacement reminder in the form of a shaving unit symbol. This symbol will light up and indicate you when to replace shaving heads.

### Simple replacement

1. Open the shaver by pressing the "release" button; 2. Remove the retaining rings by turning them counterclockwise; 3. Take out the old shaving heads and carefully insert replacements; check that the heads align exactly in the setting; 4. Replace the retaining rings and secure them by turning the lock clockwise; 5. When you close the shaving head properly, you will hear it click into place.

### How to reset your shaver

After replacing shaving heads, you can reset the replacement reminder by pressing the on/off button for more than 7 seconds. Otherwise, replacement

trigger will turn off automatically after 9 successive shaves.

### Reset your shaver to new

To get back to 100% performance, replace your shaving heads every 2 years.

### MultiPrecision blades

Get a shave that's fast and close. Our MultiPrecision blades raises and cuts all hairs and remaining stubble – all in a few strokes.

### Super Lift & Cut Action

Shave closer with the dual-blade Super Lift & Cut action. The first blade raises each hair while the second blade comfortably cuts below skin level, for really smooth results.

## Specifications
